SELECTION

WHISKEY IS OUR WORLD

SPECIFICATION: SELECTION 4 + 3

The original rye whiskey matures for 7 years in oak barrels deep in The Green Tree Distillery cellar, five meters underground where it takes on its own story of the oldest European distillery.

Blend master Roman Petruš personally takes care of the quality of the rye distillate with its typically sweet aroma of freshly cut rye. In the first four years it matures to a softness and fruity taste and only rye spirits from the best barrels according to the 4 + 3 recipe, they

mature for another three years, which makes the whisky more complex and its uniqueness fully developed.

After seven years, the exceptional Old Hunter's SELECTION rye whisky is created. The number 7 is not only the number of years of maturation, but also a lucky number for those who are seduced by the delicate taste of the Winner of the World Whisky Masters 2020.

EUROPE'S OLDEST DISTILLERY - PALÍRNA U ZELENEHO STROMU

The story of Palírna U Zeleného stromu (The Green Tree Distillery) began on 4 July 1518 when one of the most powerful Czech lords at the turn of the 15th and 16th centuries, William of Pernstein, granted brewing rights to the Green Tree house. This act started a five-hundred-year-long tradition of spirit production unique within Europe in Prostějov.
